SKILLS

- Unity
- C#
- OOP
- Git
- Multi-Player
- URP
- Lightmap-Baking
- Scriptable Object
- Platform-Specific Scripting
- UI Design
- Rendering Complexity Optimization
- Firebase
- Ad SDK Integration
- iOS, Android Store Releases
- AI-Assisted Dev (Claude Code)
- DOTween
- Backend API Integration

PROFESSIONAL SUMMARY

Experienced Game Developer with **five** years of professional Unity development, specializing in mobile game development for Android and iOS. Experienced as the primary Unity developer on multiple shipped titles, owning full client-side architecture, gameplay systems, UI, SDK integrations, and store releases. Proficient in C#, ScriptableObjects, backend API integration, and data-driven game design. Proven track record of taking features from planning through production and post-launch iteration. Skilled at integrating mobile SDKs including Firebase, Facebook, ads, and attribution tools. Experienced with AI-assisted development workflows using tools like Claude Code for day-to-day feature development, debugging, and refactoring.

I have worked with several publishers, including Supersonic, Voodoo, YSO, and Moonee. My published game **Balls Collect Mania** has achieved over **50,000 downloads** and was subsequently transferred to **YSO**. Another title, **Block Pack Jam**, was soft-launched with **Moonee**, while **Sand Jam Rush** is currently scheduled for a test run with **Supersonic**.

WORK HISTORY

Game Developer (Unity) 02/2024 - Current
Riseup Labs - Dhaka, Bangladesh

- Owned Unity client-side development of multiple casual and hybrid-casual mobile games from prototype through live release
- Built and maintained core gameplay systems, game flow, UI, and live-ops feature logic; optimized performance and build size for iOS and Android
- Designed and maintained clean, reusable client-side architecture; structured Unity projects for long-term maintainability and team scalability
- Created custom Unity packages for Editor tooling and Runtime; built data-driven systems using ScriptableObjects for easy tuning of levels, economy, and game parameters
- Integrated backend APIs and server-driven systems; processed and managed data pipelines for level design and content configuration
- Integrated and maintained mobile SDKs including Facebook, Firebase, ad networks, and attribution tools; managed SDK updates and resolved conflicts
- Led store releases to Google Play and App Store including provisioning, certificates, build management, and platform-specific issue resolution; used Git and git worktrees for parallel feature development and AI-assisted workflows

Digital Twin Engineer (Unity) 12/2021 - 01/2023
IDARE Bangladesh Ltd - Dhaka, Bangladesh

- 2D/3D digital twin development in GIS
- Automated offshore asset visualization
- Metadata visualization for energy assets
- Multi-user collaboration integration
- System efficiency for asset lifecycle management

Game Developer Intern (Unity) 06/2021 - 12/2021
MassiveStar Studio Ltd - Dhaka, Bangladesh

- Developed gameplay features in Unity/C# following clean code practices and established design patterns; built foundational skills in mobile game development
- Technology - Unity, C#

EDUCATION

Bachelor of Science (B.Sc.) : CSE, Computer Science & Engineering, 06/2016 - 06/2021

Bangladesh University of Business and Technology - Dhaka, Bangladesh
